Personal Profile

Software Engineer at Mercedes-Benz Tech Innovation, with 4+ years of professional experience building fullstack and AI-driven applications. Passionate about shipping real products — from enterprise-grade internal tools to self-hosted side projects with 500,000+ real-world API requests.

Professional Experience

Mercedes-Benz Tech Innovation

August 2021 – present

- **Software Engineer (Full-time)** January 2026 – present
Fullstack · Web Development · Java/Kotlin · DevOps · Kubernetes · AI Applications
 - Building fullstack Web Applications with Angular/React.js and Java/Kotlin Springboot.
 - Building and operating fullstack AI applications with a DevOps focus across the full development lifecycle.
 - Working in an agile environment with SAFe.
- **Software Engineer (Part-time)** August 2023 – December 2025
Angular · TypeScript · LangChain · PostgreSQL · Python
 - Developed fullstack AI-powered internal applications.
 - Contributed across frontend, backend, and infrastructure in an agile team environment.
- **Software Engineer (Working Student)** August 2021 – July 2023
Kotlin · Akka HTTP · React.js · TypeScript · Azure
 - Developed a full-stack web application for AI training data labeling.
 - Backend with Kotlin and Akka HTTP deployed on Azure; frontend with TypeScript and React.js.

Education

Software Engineering, M.Sc.

Ulm University

October 2023 – October 2025

Grade: 1.0

- Master's Thesis:
"Identifying GDPR-Critical Activities in Business Processes Using Large Language Models"

- Bachelor's Thesis:

"Design and Implementation of a Web-Based Environment for Creating and Executing Gamified BPMN 2.0 Models"

Projects

Musclegroup Image Generator API

Developer & Publisher

PHP · Docker · Linux · API · RapidAPI

- API that generates anatomical muscle group highlight images in custom colors. Self-hosted on own Linux server via Docker, published on RapidAPI - 500,000+ total requests, ~30,000/month.

EasyLingu

Full Stack Developer

Next.js · TypeScript · tRPC · PostgreSQL · LLMs · RAG · Docker · Redis · Traefik

- Language learning app with vocabulary, mini-games, and AI features: auto-generated vocabulary sets, an LLM chat, and RAG-powered practice scenarios tailored to the learner's current vocabulary.

ProcessFlow

Full Stack Developer

Next.js · TypeScript · PostgreSQL · Supabase · Docker · Traefik

- Web app for building and executing gamified business processes — drag-and-drop workflow editor, process execution engine, plugin system for custom nodes, role management, and live monitoring.

BierTurnier

Full Stack Developer

Next.js · TypeScript · Supabase · Docker

- Web app for creating and tracking party game tournaments with friends — tournament system, account management.

Lucid Dreaming Book

2024

Author & Developer

Next.js · Self-Publishing · Amazon KDP

- Written and self-published a practical guide to lucid dreaming (*Kontrolliere Deine Träume*) via Amazon KDP. Built a matching landing page with blog in Next.js.

Skills

Programming: Java · Kotlin · TypeScript · Python · PHP

Frameworks & Libraries: Angular · Spring Boot · React.js/Next.js · LangChain · tRPC · Akka HTTP

Tools & Platforms: Kubernetes · Docker · Docker Compose · Git · CI/CD · PostgreSQL · Redis · SaaS · Traefik

Languages: German (native) · English (fluent)

Awards: World Robot Olympiade 2016 - 2nd place German national final, qualified for World Final in New Delhi
